EDUCATION

KIT - Kalaigarkarunanidhi Institute of Technology, Coimbatore - Tamilnadu, India 2024 – 2028

B. Tech Artificial Intelligence & Data Science , Third Year, Current **CGPA: 8.99/10.0**

Coursework: DSA, AI , Cloud Computing , Machine Learning , ,Full Stack Development, Computer Networks, Operating Systems, Database Management Systems, OOPS .

EXPERIENCE

AWS Intern, Finest Coder Coimbatore, India (offline)

May 2026 - June 2026

- Assisted in deploying and managing AWS services (EC2, S3, IAM, VPC) while gaining hands-on experience in DevOps, cloud operations, system monitoring, and resource optimization.

Freelancer

- Worked as a Freelance Full-Stack Developer for 6+ months, contributing to major projects including "KITHackathon-Portal", "Tracen" (Phase 1 & 2), and "AI Application Assistant", with a focus on scalable application development, AI-powered automation, backend integration, and real-world system implementation.

PROJECTS

Data Guardian - [Next.js, PostgreSQL, MongoDB, Redis, AES-256-GCM]

[GitHub](#)

- Engineered a secure document-sharing platform with encrypted file exchange, OTP-based time-bound access, and real-time permission control
- Designed anti-data-leakage mechanisms with session controls, access revocation, audit tracking, and download restrictions.

AI-Based Intrusion Detection System - [React, Python, MongoDB, XGBoost, Scikit-learn, Scapy, Groq]

[GitHub](#)

- Built an AI-based real-time threat detection system to identify and prevent DDoS and MITM attacks using XGBoost and Scapy for automated traffic analysis.
- Designed an explainable security framework with risk insights and automated response mechanisms for effective threat mitigation.

Paper Buddy - [MERN Stack, Llama 3.3, JWT, SSE, PhonePe, Custom Functional AI]

[GitHub](#)

- Built an AI-powered admin assistant that converts natural-language commands into role-scoped fee and college operations with human confirmation and RBAC for secure execution.
- Engineered a DAG-based multi-agent workflow system with parallel execution, confidence gating, rollbacks, and SSE-based real-time execution tracking.

Udhayam - College Fest Management portal - [Next.js , PostgreSQL, Google OAuth, Easebuzz, Cloudinary]

[GitHub](#)

- Built a scalable event management system handling 5,000+ participants with event registration, team management, QR-based entry verification, and payment processing.
- Done role-based portals, analytics dashboards, push notifications, and real-time attendance tracking for efficient fest operations

TECHNICAL SKILLS

- C / C++
- Python
- Java
- HTML / CSS
- JavaScript
- MERN Stack
- REST API
- DBMS
- UI/UX Designing
- Automation (n8n)
- GitHub
- RAG
- ML Engineering
- Cloud Engineering
- Docker

CERTIFICATIONS & COURSES

- [NPTEL – Java Programming Language \[Elite + Gold \]](#) 2026
- [NPTEL – DBMS](#) 2026
- [NPTEL – C Programming Language](#) 2025
- [Cisco – Python Essential](#) 2025
- [Coursera – Artificial Intelligence Essentials](#) 2025

COMPETITIVE PROGRAMMING

Leetcode : Max rating - 1779 | Solved problems: 750+ | Top : 9.5% globally

Codechef : Max rating - 1471 | Position : 2 Star | Solved Problems : 720+

Global Platform Performance : 1400+ problems And Attended 120+ Contests in DSA

ACHIEVEMENTS

- Data Guardian 2.0:** Approved for Patent Rights by the Vidhya Incubation Center for its secure document-sharing and data protection solution.
- PaperBuddy Hackathon:** Secured 5th Place in India among 240+ projects, recognized for an AI-powered college fee and operations platform.
- 24-Hour Coding Hackathon:** Secured a position in the Top 10 through rapid problem-solving and solution development within the competition in our College.
- Ramakrishna College Coding Competition:** Won a prize in a competitive coding challenge, demonstrating strong programming and problem-solving skills.
